FIVE SEGMENTS, ONE PURPOSE

Corporate Finance & Restructuring

As a trusted partner to companies, boards of directors, investors, lenders and creditors around the world, the Corporate Finance & Restructuring segment is focused on delivering restructuring, business transformation and transaction solutions. Committed to our clients' success, our award-winning professionals address the full spectrum of financial, operational and transactional risks and opportunities across diverse industries. Included among our core strengths is providing expertise in guiding companies through the value-creation life cycle.

Economic Consulting

A global standard bearer in economic consulting, we provide law firms, corporations and government agencies with sophisticated analyses of complex economic issues to assist clients in understanding the challenges and opportunities they face. Our Economic Consulting practice, including our subsidiary Compass Lexecon, is involved in a wide range of engagements that provide critical insight and expert testimony in legal and regulatory proceedings, strategic decision making and public policy debates.

We also have deep expertise in securities litigation, M&A and antitrust, risk management, valuation and international arbitration.

Forensic & Litigation Consulting

We provide the industry's most complete range of forensic, investigative, data analytic and litigation services. As an independent consulting firm, we have unmatched qualifications in all types of risk, dispute, investigations and litigation scenarios. We have extensive experience serving leading corporations, governments and law firms around the globe.

Strategic Communications

As a leading global communications consultancy with more than 30 years of experience advising management teams and boards of directors, we help clients communicate effectively to protect and enhance their business interests with key stakeholders. We have a comprehensive view of strategic communications with an integrated suite of services in financial communications, corporate reputation and public affairs in all the major markets around the world.

Technology

FTI Technology solves data-related business challenges, with expertise in legal and regulatory matters. As data grow in size and complexity, we help organizations better govern, secure, find, analyze and rapidly make sense of information. Innovative technology, expert services and tenacious problem solving provide our global clients with defensible and repeatable solutions. Organizations rely on us to root out fraud, maintain regulatory compliance, reduce legal and IT costs, protect sensitive materials, quickly find facts and harness organizational data to create business value.

THE END RESULT: DRIVING IMPACT

FTI Consulting has four decades of experience in making an impact on some of the world's largest and most complex challenges, many of which have dominated global business, financial and public policy discourse. Every year, FTI Consulting helps more than 5,800 organizations globally transform the way they anticipate and respond to events, both at critical moments and for the long haul.

Shire

Impact: In July 2014, Shire plc faced an unsolicited takeover bid from U.S.-based AbbVie. FTI Consulting played a key role in helping Shire proactively communicate its value proposition as a standalone company, while also remaining sufficiently positioned to allow for a successful deal. Shire ultimately remained an independent company, going on to acquire several companies over the last few years, with the culmination of a \$32 billion transformative merger this year with Baxalta. Following the successful close of the transaction, **Shire is now the leading global biotechnology company focused on rare disease and highly-specialized conditions.**

Children's National Health System

Impact: Facing a projected P&L gap of approximately \$100 million by 2018, Children's National Health System hired FTI Consulting to develop and execute improvement plans in four areas: revenue cycle management, labor productivity and processes, non-labor, and physician enterprise. As a result, Children's National implemented actions that led to **more than \$80 million in recurring income statement improvements**. And over the last two years, Children's National has received **two upgrades in its credit rating**.

US Airways-American Airlines

Impact: FTI Consulting's subsidiary Compass Lexecon provided expert reports that demonstrated to the Department of Justice ("DOJ") that the US Airways-American Airlines merger would create significant consumer benefits with minimal competitive harm, including heightened focus on analyzing and rebutting the DOJ's concern about Advantage pricing. **A settlement was reached that required limited (and anticipated) concessions but kept the parties' merger plan intact, allowing \$1 billion in estimated annual synergies.**

Pioneer Iron and Steel

Impact: Global recession forced Chinese Pioneer Iron and Steel Group ("PISG") into liquidation. As the appointed liquidator, FTI Consulting experts were able to build a solid case showing that PISG's majority shareholder had intentionally transferred assets outside of PISG to shield them from creditor claims. Through external sources and Ringtail®, FTI Consulting's proprietary e-discovery and document review software, we were able to secure **a global settlement and substantial dividend in the range of 40 cents to the dollar for creditors.**

Level 3

Impact: On June 16, 2014, Level 3 Communications, a Fortune 500 fiber optic and infrastructure connectivity company, announced its acquisition of local exchange carrier tw telecom. FTI Consulting partnered with Level 3 to advise, design and plan an integrated product, network and IT road map, a fully integrated new sales force and the integration of all functions across the organization. **As a result, Level 3 exceeded its earnings and synergy goals in the first full quarter post-close and maintained its sales momentum through the integration of the sales teams. The deal is on track to achieve the targeted \$200 million in synergies.**

SEPTA

Impact: After 10 years of mounting claims losses, the Office of General Counsel for SEPTA, the sixth largest transit system in the United States, hired FTI Consulting's Global Insurance Services practice. FTI Consulting devised and led a three-year plan that lowered claims and litigation costs, improved efficiencies and better integrated the Office of General Counsel into SEPTA's broader operations. The implementation of a case management system, formalized procedures, and a new culture of quality and accountability all led to a **\$20 million reduction in claims over a two year period and more than \$800,000 in labor cost savings.**
